

SWEN Capital Partners Announces Final Close of Europa 7, its First Article 9 SFDR Multi-Strategy Fund

- *SWEN PE Select Europa 7 is already 80% committed and one of very few European Article 9 SFDR fund-of-funds dedicated to supporting SMEs and mid-sized companies*

Paris, 1st October 2026 – SWEN Capital Partners (“SWEN”), the sustainable investment manager, has announced the final close of SWEN PE Select Europa 7 at €236 million.

SWEN PE Select Europa 7 is the seventh vintage of SWEN’s European multi-strategy private equity programme, which has been investing directly and indirectly alongside European private equity managers since 2008. The fund is in line in size with its three predecessors, Europa 4, 5 and 6, which raised €261 million, €240 million and €255 million respectively.

At final close, 80% of Europa 7 was already committed to underlying investments, providing significant visibility over the portfolio while retaining capacity to capture further opportunities. SWEN expects to continue making commitments through the end of 2026 and the first half of 2027. Through its overcommitment mechanism, the fund can make commitments of up to 120%, giving Europa 7 capacity to make approximately €283 million of total investment commitments.

SWEN PE Select Europa 7 builds on SWEN’s multi-strategy approach to European private equity, combining primary fund commitments, secondary transactions and minority direct investments within a single portfolio. Its target allocation is approximately 50% to primary investments, 20% to secondaries and 30% to minority direct investments, giving investors diversified access to specialist managers and companies while allowing SWEN to manage manager selection, pacing and diversification across the portfolio.

The seventh vintage is the first fund in the Europa range to be classified Article 9 under the Sustainable Finance Disclosure Regulation (SFDR), making it one of very few European Article 9 fund-of-funds strategies dedicated to supporting SMEs and mid-sized companies. Its performance target is the same as previous vintages, demonstrating that sustainable finance and financial performance can go hand in hand.

The strategy focuses on three broad themes: decarbonisation and the energy transition, the circular economy, and social and healthcare. Primary and secondary investments are made through Article 9 funds, while Europa 7’s direct co-investment allocation is deployed through SWEN RISE, SWEN’s dedicated Article 9 SFDR co-investment strategy.

SWEN RISE has completed 11 transactions to date, including one exit, with €70 million invested. The strategy is targeting a portfolio of 15 to 20 investments, focused primarily on buyout and growth buyout opportunities, alongside growth capital, across the same three themes as Europa 7.

Laurent Ghilardi, Managing Director and Head of the PE multi-activity at SWEN Capital Partners, said: *“The strength of the Europa strategy is our ability to combine different routes into European private equity within a single diversified portfolio. Primary investments provide access to specialist managers, secondaries allow us to manage pacing and build portfolio visibility, and minority direct investments give us direct exposure to selected companies alongside managers we know well.*

“Europa 7 builds on more than 15 years of experience in this strategy while taking it a step further as the first Article 9 SFDR fund in the range. With 80% already committed at final close, we have strong visibility over the portfolio and continue to see attractive opportunities¹.”

¹ Past performance is no guarantee of future returns. Any investment involves a risk of capital loss.

SWEN's multi-strategy private equity platform represents €6.5 billion of assets managed or advised since 2008, with around 450 funds in portfolio and more than 60 minority direct investments completed.

END

About SWEN PE Select Europa 7

SWEN PE Select Europa 7 is SWEN Capital Partners' seventh European multi-strategy private equity vintage. The strategy combines primary fund commitments, secondary transactions and minority direct investments, with a target allocation of approximately 50%, 20% and 30% respectively. It focuses on decarbonisation and the energy transition, the circular economy, and social and healthcare.

SWEN PE Select Europa 7 is a Fonds Professionnel Spécialisé (FPS) structured as a Fonds Commun de Placement (FCP) and is not subject to approval by the French Financial Markets Authority (AMF). Subscription, acquisition, sale or transfer of units is reserved for professional investors. Before investing in this fund, investors should carefully review the fund's legal documentation, including its terms and conditions of operation and the risks involved, notably the risk of capital loss.

About SWEN Capital Partners

SWEN Capital Partners is a sustainable investment manager investing in the systems that sustain nature. Through strategies spanning infrastructure, private equity, venture capital and private debt, the firm backs the infrastructure, technologies and business models addressing long-term structural challenges across decarbonisation, ocean regeneration, soil regeneration, health and social well-being.

A mission-driven company (*Société à Mission*), SWEN Capital Partners combines specialist investment expertise with scientific and technical partnerships, rigorous impact methodologies and governance designed to align purpose with performance. Its ambition is to mobilise private capital behind solutions that create lasting value for investors while advancing both purpose and performance.

SWEN Capital Partners manages, advises on or oversees €17.1 billion in assets* and employs more than 130 professionals. The management company is owned by Ofi Invest, a brand of Aéma Groupe (Macif, Abeille Assurances holding, AESIO Mutuelle), together with approximately 50 employees through the holding company SWEN Managers.

** Total amount of commitments as of June 30th, 2026. The amounts include collective management, third-party management (management mandates), regulated services (investment advice and RTO), and unregulated services (portfolio supervision).*
